RESPONSE
Practitioner Viewpoint
The Project for Open Source Email Writing [or] Public Open Letters with Regular Updates and Contributives Comments
We express an interest to crowd collaborative writing projects for e-mails. E-mails are programs as well that deserve updates and releases.

into the corresponding fields. Your abstract should be no longer than 250 tract is limited to no more than 100 words.

*** Purpose (limit 100 words)**

We express an interest to crowd collaborative writing projects for e-mails. E-mails are programs as well that deserve updates and releases. We wrote some papers about the Universe as a Program. The Universe as a Program is a representation to start composing all of existing and living entities (in the Universe). We argue important representations issues. Many new findings are to be presented. Importantly, this document concerns an emergency situation: We are on the Refugee Claimant list in Canada. We would like to express few notes of Memorandum. We would truly referred more preprints as support such as : https://doi.org/10.5281/zenodo.21400680.

*** Design/methodology/approach (limit 100 words)**

We have shown the importance of emails updates, through ai overview. More can be done with collaborative crowd writing for emails.
